

*Hello. My name is Andy and I come from China. I came to Sweden on 12 Dec 2019. I was interested in music for a very long time. When I was 9 years old, I liked to sing pop songs, and now I am also interested in animation songs, both singing and playing on my piano. I think I have a very good chance in Sweden. I got better teachers and much more choice. At least, I'm pretty glad that I can participate in this competition, because I will learn such a lot of things from the other contestants.*
