*Her own words about music:*

*“To me music is a way to express my feelings, emotions and a way to stress down and help me to get through my day. I like everything that is therapeutic in a way, for example arts and crafts like sewing and crocheting. Music is also a therapeutic way to feel like myself in that moment of time. I love playing piano and I know that I will continue with this all my life. Eva Markstedt, 13 years”*
