

I am Yang Sun. I am 8 years old. I have been playing cello since I was 5. I remember that when I was sitting behind the cello for the first time, I was shocked and felt that the cello is exactly the instrument which I was looking for. She is mine. Then I decided to take her home and began playing with my cello everyday. When I was 6 years old, I got the third prize in the Stockholm International Music Competition in 2019. I am dreaming to be a cellist and bring the beautiful sound to the world.
