

Harju County String Orchestra (Harjumaa Keelpilliorkester) is a youthful orchestra whose repertoire consists of mostly classical music.

String Orchestra of Harju County was founded in 2003, when students and teachers of string instruments in Harju County, the biggest county in Estonia, came together for the first time. Since that time, 8 – 12 concerts are given yearly in several places of Estonia. The Orchestra has also performed in Austria, Bulgaria, Russia, Belarus, Italy, Hungary, Poland, Sweden and Finland. The continuity of the orchestra is mostly carried by active string teachers of Harju County (music schools), who are the core of the orchestra with their most accomplished students. Harju County Government and Union of Harju County Municipalities have been good supporters and co-operators of the Orchestra. The music schools of Harju County and Cultural Endowment of Estonia have also supported the activities of the Orchestra. Imre Rohuväli has been the orchestra chief conductor since 2017.
