

Alexandra Long

Born 30.04.2014

Brussels, Belgium

I love many things but especially music, ballet, theatre, and dancing. Beside my piano classes, I take ballet classes and go to theatre school. I also like to visit classical music concerts in philharmonies and conservatories. My favourite composers are Shostakovich, Schumann, Tchaikovsky, J.S Bach and Haydn.

I like sports and take swimming classes and I also play chess and participate in chess tournaments.

I like travelling and reading in different languages. I know fluently Russian, English and French and would like to add Italian. I find that knowing a language is the best way to discover the culture of a country.

I have two rabbits and sea-monkeys (type of fish) and I love to take care of them.

My dream is to go to Antarctica one day in a science expedition like Ernest Shackleton.

My motto in life: "Believe in yourself and never give up!"
