

My name is Minzheng Li. I'm eleven years old. I'm from China and living in Sweden with my parents. I can speak Chinese, Swedish and some English and Spanish. In my leisure time, I like programming, reading, swimming, skiing and painting.

In the field of music, I have a wide range of interests and always try to understand the sound principles of various instruments. I am also very fond of piano extemporization.

This love and cognition of music makes me very enjoy the process of learning music, and it will always accompany me to grow up rapidly on the road of music learning.
