

My name is Peter Jin and I am an 11-year-old boy living in Stockholm, Sweden. I started my piano journey when I was 8 years old. It is not just a hobby, it's like magic. Whenever I sit down at the piano and start playing, I feel like I'm telling a story without using any words. That's pretty amazing.

Piano teaches me to be patient and keep trying, even when it's hard. When I do finally master a song, it's such an incredible feeling of accomplishment! Besides playing piano, I also enjoy ice skating in my free time.
