

Viktoria Marie began her musical education by playing piano at the age of 3. Two years later, during a visit to the Drammen School of Arts she heard someone playing cello. She fell immediately in love with the instrument's warm sound and since then she's still happy with her choice. In 2022 she participated in her first competition, "Inspirasjonskonkurransen" where she won 4th prize after competing with other music students up to 18 years old. Last year she took part for the first time in X SIMC where she won 3rd prize.
